CONSTRUCTION

- 1. Hard scratch resistant layer, for durability and ease of maintenance during window cleaning
 2. High optical quality polyester, with anti IR metal particles
- **3.** Bonding adhesive
- 4. High optical quality polyester5. PS adhesive, glass polymerization within 15 days
- **6.** Protection release liner, disposable after installation

MAINTENANCE INSTRUCTIONS

Soapy water solution (ref. 600-F0355 Film on), do not clean for at least a month and do not apply any type of sticker or adhesive on the film. To prevent a possible oxidation of the metal alloys, it is mandatory to use our sealing varnish (reference number 0771) on the corners of the film, after installation.

Non-contractual data. We reserve the right to modify the composition of our films at any time. Consult our warranty documents.
